PROFESSIONAL SUMMARY

Full Stack and React Native Developer with 3.5+ years of experience building scalable mobile applications and backend systems using React Native, Node.js, FastAPI, and AWS. Hands-on experience developing REST APIs, microservices, AI-powered features, and CI/CD pipelines for production applications. Skilled in integrating third-party services, optimizing application performance, and delivering reliable cloud-based solutions.

EDUCATION

S.S. Jain Subodh Autonomous P.G. College

Master of Computer Applications — GPA: 8.8/10

Jaipur, Rajasthan

05/2023 – 05/2025

S.S. Jain Subodh Mahila Mahavidhyalaya College

Bachelors of Computer Applications — 91% (Merit in Rajasthan)

Jaipur, Rajasthan

05/2019 – 05/2022

EXPERIENCE

Biz4Group LLC

AI Product Engineer

Mansarovar, Jaipur

05/2023 – Present

- Developed cross-platform mobile features using React Native, including deep linking, local state management, and native platform integrations.
- Developed and optimized backend microservices and REST APIs using Python (FastAPI) and Node.js, improving application response times by 35%.
- Implemented NestJS architectural patterns including modules, guards, and interceptors to build maintainable and secure backend services.
- Integrated CI/CD pipelines using GitHub Actions and AWS to streamline production deployments.
- Collaborated with product, design, and QA teams to deliver stable and high-performance production features.

Koginics

Full Stack Developer – Trainee

Malviya Nagar, Jaipur

10/2022 – 05/2023

- Developed frontend components and backend APIs using the MERN stack for web applications.
- Improved API performance through database query optimization and modular code enhancements across relational and NoSQL databases.

PROJECTS

Route AI — Logistics Optimization Engine (React Native, FastAPI, GPT-4o, Redis)

02/2026 – Present

- Engineered an AI-driven routing mobile and web application for commercial truck drivers, automating optimal path generation based on legal permit uploads.
- Integrated OpenAI GPT-4o to parse complex permit documents, extracting critical structural metadata to dynamically compute route restrictions.
- Implemented HERE Maps API and Google Routes API to render real-time, compliant navigation paths within a high-performance React Native frontend.
- Utilized Redis caching to store frequent routing queries, significantly reducing API processing overhead and database read stress.

SweatJoy — Live Fitness Platform (React Native iOS, Apple Subscriptions, Sentry)

11/2025 – Present

- Developed and deployed core iOS mobile features for a live commercial wellness application, managing app stability and performance tracking via Sentry integrations.
- Implemented secure Apple App Store subscription modules and custom iOS deep linking architectures to handle promotional 1-month trial conversions.
- Built a personalized meal tracking and nutritional logging feature, optimizing local state management to ensure a seamless mobile user experience.
- Designed and integrated an automated data pipeline connecting the mobile application backend directly with Zoho CRM for user lifecycle tracking.

- BizBot** — AI Business Assistant (FastAPI, Next.js, PostgreSQL, Redis, OpenAI)

06/2025 – 11/2025
- Engineered an AI-powered enterprise organization chatbot deployed across custom cloud **Microservices**, reducing document retrieval timelines by 40%.
 - Optimized PostgreSQL query indexing and implemented Redis caching, reducing overall backend API latency thresholds by 60%.
- WorthAdvisor** — Financial Reporting Platform (MERN, Ionic, AWS)

06/2023 – Present
- Designed secure multi-role access control configurations (client, employee, admin) for 200+ active production users on AWS cloud infrastructure.
 - Implemented rapid CI/CD deployment pipelines using GitHub Actions automation and Serverless frameworks.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS, SQL

Mobile & Frontend: React Native, React.js, Next.js, Redux, Vite, Ionic

Backend Frameworks: Node.js, Express.js, Nest.js (Architectural Patterns), FastAPI, **Microservices Architecture**

Databases & Caching: PostgreSQL, MongoDB, MySQL, Redis, AWS RDS

Cloud Infrastructure: AWS (ECS, ECR, S3, CloudFront, Serverless)

DevOps & Deployment: Docker, Git, GitHub Actions, Vercel, AWS Amplify, Sentry, Postman, Swagger

AI & Third-Party APIs: OpenAI GPT-4o, AWS Secrets Manager, CloudWatch, Google Routes, Twilio

CERTIFICATIONS

OpenAI API & Prompt Engineering — Coursera (2025)

JavaScript Algorithms and Data Structures — freeCodeCamp (2023)

Git & GitHub Mastery — Udemy (2022)

PROFESSIONAL SKILLS

- Team Leadership
 - Cross-functional Collaboration
 - Problem-Solving
 - Agile Methodologies
